Defender Xtreme B3 (SR2)

LPS 1175 High-security doorset

The Defender Xtreme B3 (SR2) doorset comes with a wide range of options including inward opening.

Introducing our newly extended and advanced LPS 1175 security doorset, Defender Xtreme 2.

Our high-security steel doorset specification, third party tested and accredited by BRE to the LPCB LPS 1175: Issue 8 scheme. This doorset provides resistance to forced entry in accordance with the prescribed test standards.

Available in a wide range of configurations, including inward opening, with vision panels, louvres, side panels, over panels, a choice of finishes, and in any colour, the Defender Xtreme offers high security and design flexibility to suit your scheme.

Customised to suit

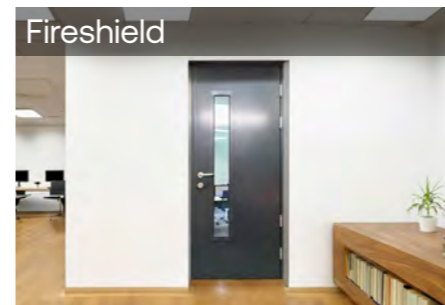

- Good selection of hardware options to choose from
- Extend the structural opening with side panels and over panels
- Marine-grade finishes available.
- Multipoint locking options available, including mechanically and electronically controlled
- Selection of finishes, including woodgrain and stainless steel
- Available in any RAL colour.
- Single doorset max width of 1490mm & 2490mm high
- Double doorset max width of 2890mm & 2490mm high
- Bespoke, made to order and available in any quantity.

Upgrade your doorset

<p>+ Enhance fire protection with a fire-rated specification up to 120 minutes.</p>	<p>+ Boost thermal performance with Metador Thermaguard technology. Achieve down to 1.5W/m²K U value.</p>	<p>+ Elevate acoustic performance with Metador Soundguard reducing sound transmittance up to 36dB Rw.</p>	<p>+ Weather protection with marine grade finishes to both door and hardware.</p>	<p>+ Elevate your security with the advanced Defender Xtreme 3 - LPS 1175 Issue 8 C5 (SR3) steel doorset.</p>

More doors in our range...

Some of our core door range is shown above, for more information visit www.metador.com.

Designed to Protect

Metador is an industry-leading manufacturer, specialising in bespoke, high-performance steel doors, intelligently designed for security, safety, and convenient access.

We offer a vast range of doorset configurations, all manufactured in-house from premium quality materials. Our doors designs are modern, sleek, compliant and highly customisable to complement each build.

We invest heavily in an ongoing R&D and testing programme to continually bring enhanced door specifications to market, with a core focus on safety, security and fire protection.

We operate an Approved Metador Installer (AMI) initiative, providing training and can recommend highly-skilled independent door fitters across the UK.

Our certifications

The latest version of our certification is available at redbooklive.com, search 1284c.

About us

Established in 2004, we have been supplying industrial, commercial and residential doors nationwide for over 20 years, designing thousands of doors for all sectors and situations.

Our wealth of expertise enables our Technical Team to respond effectively to challenging, complex design briefs, while our exceptional Customer Support Teams and Special Projects Team provide an extra level of service.

Reputed for our high-quality and technical competence, we continue to push the boundaries of steel-door manufacture to provide best-in-class steel door solutions.

Metador continues to go from strength to strength. We have doubled our manufacturing space, we will be growing our teams and expanding our industry partner network to bring more co-created pioneering designs to market.
